

# SPONSORSHIP OPPORTUNITIES

Grow Solar

Powered by  
**SunShot**  
U.S. Department of Energy

**March 23-24, 2016**

The Hotel at Kirkwood Center  
Cedar Rapids, Iowa

**GROWSOLAR.ORG**

## BRINGING PEOPLE TOGETHER

Solar Powering Iowa will engage utilities, policy makers, lenders, developers & contractors, local governments, and training & workforce development professionals to help them define opportunities in the solar market and access resources and networks to advance projects. The conference will be packed with an energizing mix of large-group speakers, breakout sessions, regional and national keynotes, and networking time.

## AND BUILDING CAPACITY

With a full day of professional training on Wednesday, March 23rd, participants can earn Continuing Education Credits while learning about PV system design, National Electric Code updates, PV system inspection, PV Sales and Finance, and a suite of product-specific trainings.

## TO GROW SOLAR IN IOWA

Strengthened net metering rules, third party ownership, solar-ready communities, shared solar, on-bill financing for efficiency and renewables, utility solar deployment, the Clean Power Plan... Join us in discussing how homes, businesses, communities, and their utilities can take advantage of these opportunities to grow solar in Iowa.
